

make a leprechaun trap

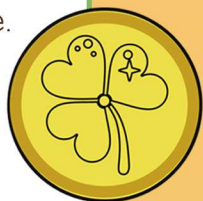

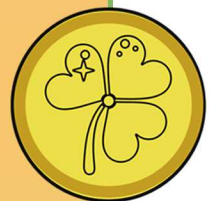

Materials:

- 3 template sheets printed on cardstock paper ... (Instruction Sheet - optional to print.)
- Small, sharp scissors
- Scoring device, such as the blunt edge of scissors
- Glue or glue stick
- Clear tape
- Q-tip
- Hole punch
- Adult hands helping little hands

Directions:

1. Print out the needed template sheets.
2. Cut out the house and roof along the solid lines.
3. Score and fold the house inward, along the dotted lines.
4. Glue the tabs to the inside of the house that is formed.
5. Punch holes where indicated.
6. Cut out the rainbow and clouds.
7. Glue the back sides of the house to the inner edges of each cloud.
8. Cut out the gold coins, leprechaun, shamrocks and ladder.
9. Place a few coins inside of the house.
10. Trim the cotton fuzz from both ends of a Q-tip.
11. Tape the Q-tip to the inside of the roof along the center, crosswise.. Fold the roof slightly, along the middle.
12. Put each end of the Q-tip through the holes in the house to create a swinging trap-door roof.
13. Glue the remaining coins and shamrocks wherever you choose.
14. Slightly bend the ladder so that it can be propped on the side of the house.

Your trap is now set for the leprechaun!

Cut along solid lines. Fold flaps in along dotted lines.

Use a hole-punch tool to make a hole here.
